Best Pump For Every Requirement

AN ISO 9001 : 2008

BRIEF HISTORY

The SU group, named after its founder Santokh Uppal was setup in Mumbai during the year 1967 . Having done his Engineering in UK, he returned with a valuable insight of his industry at Pleuger Pumps, Germany to set up one of the India's First Unit to manufacture Pumps in this country, thereby earning him the unofficial title of "**Father of Submersible Pump Industry & Pioneer of Dewatering Pump industry**" SU has India's most diverse manufacture range such as process, dewatering. Sewage, Submersible & Marine Pumps etc. SU is also one of the few manufacturers who supply specialized motors & equipments to the defence department which are used in our main battle tanks.

SERVICE

The 'SU WAY' means responsible for ensuring that the customer draws exactly the sort of benefit from his product, which he has right to expect. It means offering competent assistance in everything to do with pumps, pumps application & installation.

After marketing for a long time through Noida unit, SU started a manufacturing unit at Ambala (Haryana) as a localized setup for the Northern India under the name and title **SU Pumps Ambala** in partnership with **Sh. G.S. Cheema**, who got the training of Submersible Dewatering Pump from Mr. Pleuger of Germany. His thorough knowledge backed by an experience of about 40 years in the field and with collaboration of SU Group has contributed tremendously in making the SU an ultimate choice of the Govt. Departments and Irrigation people in the Northern India. Other Engineers & Technical staff too have an experience of 10 to 15 years of their trade & are fully aware of latest technology.

PRODUCT RANGE

Frame Size (Motor x Pump)	Min. Bore Dia. Meter	Head (Mtrs.)	Discharge (LPM)	Power (HP)
V3 x V3	3" (75mm)	10 - 100	10 - 65	1.0-1.50
V4 x V4	4" (100mm)	10 - 200	10 - 420	0.5-5.0
V5 x V5	5" (125mm)	10 - 85	250-700	5.0-12.50
V6 x V6	6" (150mm)	10 - 200	250-1400	3.0-35
V6 x V7	7" (180mm)	10 - 150	500-1700	5.0-35
JM (V6xV8)	8" (200mm)	10 - 150	500-2500	7.50-35
V8xV8	8" (200 mm)	10 - 225	500-3500	7.50-50
V9xV9	9" (250 mm)	10 - 225	1000-6000	40-75
V 10xV10	10" (300 mm)	10 - 225	2500-12000	40- 150

CERTIFIED COMPANY

PUMPS

SU Submersible Pumps are manufactured to pump clear water for irrigation but liquid present no problem to us.

MOTORS

SU Submersible Motors are manufactured as per requirement. The Motors are available with Oil as well as mechanical seals

FEATURES & DESIGN OPTIONS :

- Available in 2900 RPM but optionally available in 1750RPM (60 Htz)
- Motors can be offered to operate at 300/415 volts (+10%-15%) - 50 Htz. But Motors for low to low voltage & high voltage can also be supplied on demand.
- Dynamically balanced impellers are radial as well as mixed flow type.
- Motors & Pumps are water lubricated for longer life.
- Motors have an extra overload in built capacity.
- Noiseless, Flood Proof, Vandal Proof Operation.
- Easy & economical installation
- Pumps & Motors of higher capacity, Higher Head, Higher HP & with special features are also manufactured by us.
- Stator tube is available in Stainless Steel & Also Available in M.S.
- The Motors are rewind able & easily repairable.
- V4 & V6 motors upto 5 H.P. also available in Single Phase & Three Phase.
